British Society for Gynaecological Imaging

Gynaecological Ultrasound Study

The British Society for Gynaecological Imaging is delighted to invite you to the third of our popular gynaecological ultrasound study days. The society is open to all practitioners working in the field of women's health imaging.

The event is aimed at sonographers, nurse sonographers and others working in gynae ultrasound and we have an exciting programme for what promises to be an enjoyable and informative day.

Confirmed speakers

Dr Susanne Johnson, Princess Anne Hospital, Southampton: Caesarean scar pregnancies.

Angela Bradshaw: Alexander Technique for ultrasound professionals.

Topics will include:

Ovarian masses—standardised descriptors

Ultrasound in fertility

Ask the expert
